

## The American Gynaecological and Obstetrical Journal, Vol. 13: July December, 1898 (Classic Reprint)

Filesize: 6.36 MB

### **Reviews**

*This publication might be well worth a read, and much better than other. It really is simplified but excitement inside the 50 % of the book. You will not feel monotony at whenever you want of the time (that's what catalogues are for concerning when you check with me).

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The American Gynaecological and Obstetrical Journal, Vol. 13: July December, 1898 While a large mammal bears but a single young one at a time, is several years before it commences doing this, and then repeats the reproduction at long intervals; we find, as we descend to the smaller members of the class, a very early commencement of breeding, an increasing number at birth, reaching in small rodents ten or even more, and a much more frequent recurrence of broods: the combined result being a relatively prodigious fertility. If a specific comparison be desired between mammals that are similar in constitution, in food, in conditions of life, and all other things but size, the deer tribe supplies it. While the large red deer has but one at a birth, the small roe deer has two at a birth. From vegetable life: For some years it [the cocoanut] goes on shooting up without making any sign of becoming fertile. About the sixth year it flowers; but the flowers wither without result. In the seventh year it flowers and produces a few nuts; but these prove abortive and drop. In the eighth year it ripens a moderate number of nuts; and afterward increases the number until, in the tenth year, it comes into to full bearing. Meanwhile from the time of its first flowering its growth begins to diminish, and goes on diminishing till the tenth year, when it ceases. Here we see the antagonism between growth and sexual genesis under both its aspects - see a struggle between self-evolution and race-evolution, in which the first for a time overcomes the last, and the last ultimately overcomes the...
